COAL MINE—PRODUCTION

604-d-1
0504

From Benson and Taylor notebook:

Stripping Operations in Williamson & Saline Cos.

7-28-35

Carterville District:

Coal Stripping Co.- building new tipple and will be able to load 3 cars at time. Motor haulage will dump over ramp bin, and coal conveyed by steel conveyor up to screens in tipple. Loading booms for loading.

Tipple located near NE_C SE₄, sec 4, T9S-1E. Have acreage north of I. C. R. R., and have approximately 120 acres in  piece. Will strip both No. 6 and No. 5 according to man at tipple. Also have pillars from old John mine and Peabody 25 in No. 6 and possibly a little virgin coal from edge of Peabody 25.

Have large dragline operating stripping at present.

These notes almost certainly refer to McLaren Coal Co. No. 1, a large strip mine which opened in 1935 with its tipple at the location stated by Benson.

John Nelson 7/26/02
