

FIELD NOTES
Illinois State Geological Survey

August 24, Wednesday

Visited offices of **Big Creek Coal Co.**

Fault in No.4 (Sec. 15) Mine. Found a fault running N 36° W at air shaft raise of 20' on north side also smaller fault (5½') N 43° W between air and main shaft.

Galatia mine - (new shaft) get dike running N 35° W which it is suggested may be the continuation of the dike in Big Creek No.3 Mine.
